MEETING BETWEEN [REDACTED] AND CONTRACTING AGENCY HELD 19 JANUARY 1955. 25X1

Contract No. RD-71 (H-2026)

Those present at the meeting were:

Contracting Agency

25X1

25X1

The main topic of discussion at this meeting centered about a 12 to 30 megacycle miniaturized receiver with specifications similar to that of the RR-11AA receiver. [REDACTED] presented a tentative proposal to [REDACTED] based on what is believed to be the best techniques of achieving the desired results. This proposal was discussed at length by all parties present. The highlights of the proposal concerned the transistor and coil characteristics required and the feature of interchangeability which could be achieved between the proposed receiver and that being developed under the present contract. 25X1

A short discussion of the electrical and mechanical problems of the RR-11AA receiver followed. This discussion was of a general nature and no specific points will be herein mentioned.

[REDACTED] gave tentative approval of the use of tantalum capacitors and definite approval should be forthcoming in the near future. 25X1
